From Thursday September 30. to Monday October 4. 1697.

Cracow, September 25.

SINCE the King of *Poland*'s Coronation a Dyet has met here according to custom; for which the necessary Summons were sent out some time before; At their first meeting some of the Deputies, who are lookt upon to be in the Prince of *Conty*'s Interest made reflections upon the Castellan of *Cracow* and other Senators who had advised the hastning the King's Coronation, which in their opinion would have been better deferred, till the present dispute concerning the Crown had been determined, by an accommodation, to which they said, the Primate and the Gentlemen that adhere to him, were very well enclined; But they were soon silenced by the rest of the Deputies, who would not hear such Discourses; after this a great Contest arose about the choice of a Mareschal or Speaker, which went so far, that Sabres were drawn, but the matter was composed, and the *Starost Minsky* of *Lithuania* was Elected yesterday, so that they will now enter upon business. The King holds his resolution of going in few days to *Warsaw*; and 'tis said the Dyet will likewise remove, and end their Session in that place.

Warsaw, Sep. 26. The Primate and most of his adherents are retired from hence; He has desired the Gentlemen of his Party to meet on the 10th of the next Month; In *Upper-Poland* the Rendezvous is appointed at a place called *Lenoui*, and the Castellan of *Kalish* is to command them; In *Lower-Poland* they are to assemble at *Zawickhurst* under the command of the Palatin of *Bitz*; And for what concerns the Dutchy of *Lithuania* 'tis left to Prince *Sapieha* who is to have the Chief Command, to name such place of Rendezvous as he shall think fit; But 'tis generally believed that among other considerations, the fear of the Moscovites, will keep things quiet on that side.

Dantzicke, Sep. 28. The Prince of *Conty* finding no Encouragement to come a-shore here, continues with *du Bart*'s Squadron in the Road near this place, expecting the return of an Express he has sent the Primate; In the mean time the Magistrates of this City are resolved to proclaim the Elector of *Saxony* King of *Poland*, as the Citys of *Thorne* and *Elbing* have already done, and to morrow this Solemnity will be performed with a Thanksgiving for his Election; And to provide for their better security they are raising 3 or 400 Soldiers, to reinforce the Garison in the Fort of *Termunde*, and the Burghers are appointd to keep guard here; We hear the King of *Poland* has sent a Body Horse to hinder the P. of *Conty*'s Landing at any other place in *Prussia*; tho 'tis probable he will not attempt it seeing the present posture of affairs in *Poland*; There have not passed any Compliments between him and the Queen Dowager of *Poland*, who continues still here.

Vienna, Sep. 25. The freshest Letters we have received from the Imperial Army in *Hungary* are dated the 18th of this Month; They lay then between *Zenta* and *Little Camise*; having been forced to leave their former Camp (as they did on the 14th) because of the noisom smell occasioned by the Corruption of such a vast number of dead Bodies, which 'twas feared might bring an Infection into the Army. On the 15th Col. *Glockleberg* passed the River *Theysse*, and the next day advanced within a mile of *Temeswaer*; he found a great deal of Baggage and some pieces of Cannon by the way, which he brought back with him, together with divers Prisoners, who all agreed that of the Enemies Foot, which were encamped on this side the *Theysse*, there did not escape 2000.; That the Grand Visier with the Aga of the Janisaries, and several Bassa's are slain; And that the Sultan fled in such hast to *Temeswaer*, that he came there in few hours after his Army was routed; and we hear he is since retired towards *Belgrad*; Several other Parties that had been sent from the Imperial Camp, were come back and made the same Report; which was confirmed likewise by a great many Deserters; And they all say the Consternation is very great at *Temeswaer* and other places belonging to the Turks, who look upon this Defeat to be as great a blow as they have had during this War, and very much apprehend the Consequences of it. Count *Dietrichstein*, who arrived here some days ago, has presented to the Emperor 7 Horse Tails, and 93 Standards and Colours, several of the latter being quite dis-coloured with Blood; and says, the Cannon taken from the Enemy consists of 109 pieces. Prince *Charles* of *Vaudemont* who brought the Emperor the first News of this Victory, is gone back to the Army, and carries with him further Instructions for Prince *Eugene*; 'Twas thought they might have attack'd *Temeswaer*, but there has fallen so much Rain for these last 8 or 10 days, and the season is so far advanced, that 'tis thought they will hardly now undertake such a Siege, especially seeing every thing necessary for it is not yet in a readiness.

Cologne, Oct. 4. Since the Surrender of *Ehrenbourgh* the Garison whereof marched out the 28th past, 352 strong, the Forces on both sides are going to separate, and to march to their Quarters.

Hamburgh, Oct. 4. The *Greenland* Fleet belonging to this City, consisting of about 55 Sail, all well laden arrived here last Week; but 5 or 6 of their number are wanting being cast away upon the Ice. We have an account that the City of *Dantzicke* as well as the other Chief Cities in the Royal-*Prussia* which depends on the Crown of *Poland*, have declared for the Elector of *Saxony* as King of *Poland*, and resolved to do him Homage; *Du Bart*'s Squadron, composed of 5 Men of War and a Tender, lay in the Road near *Dantzicke*; The Prince of *Conty* had not yet been a-shore, but sent for fresh Provisions; The King of *Poland* was expected at *Warsaw* the 30th of the last Month; The Vessels on which the Artillery and Ammunition taken from thence by the Primate's Order, were laden, run a-ground in passing up the River, and by that means would in all likelihood be seized by a Party the King had sent thither.

Paris, Oct. 4. The Count *de Celi* will return to morrow for *Holland* with the Fr. King's Ratifications of the Treaty of Peace concluded with the King of *England*, the King of *Spain*,

and
